AllLivesMatter.World: A Global Call For Humanity and Compassion, Calling for Peace

Our message:

1. Evil exists within humanity, manifesting in various forms of hurt, destruction, and injustice. It transcends race, color, nationality, gender, and religion.
2. Our true enemies are not groups of people, but individuals who choose to do evil - whether through overt violence or subtle corruption of justice.
3. We must recognize that evil can hide behind institutions, ideologies, and even well-intentioned policies. It often manifests in actions that undermine fairness and justice.
4. Our challenge is to remain vigilant against both obvious wrongdoing and subtle corruption of principles that lead us away from true justice and kindness.
5. By embodying kindness, fairness, and dukiness, we can combat this hidden evil and work towards a more just world.

Join us in this AllLivesMatter.World global call for humanity and compassion, calling for peace. Together, we can make a difference, because all lives matter.
